When you buy John Deere implements you are sure of prompt repair service throughout their long life

Kill the Weeds

Quack grass, Canada thistle, sow thistle, and other weeds are robbing your plants of moisture day and night. Rout these pests effectively and easily with the

John Deere-Syracuse Quack-Grass Destroyer

The deep-penetrating spring teeth of this destroyer cut and tear the roots and underground stems and bring them to the surface where the sun kills them. They may be gathered up, hauled away and burned.

Builds destroying weeds, this implement does a thorough job of mulching the soil without damaging roots and trees. It can be used in the field for stirring the soil—it makes fine productive seed beds.

Teeth are spaced to give ample clearance in all conditions. We know you will be pleased with this implement.

Come in as soon as convenient and let us show it to you.

Staten-inch wheels at rear and adjustable steel shoes at front carry the frame about six inches above ground. Extremely flexible—gathers up weeds, roots and trees, and leaves no uncut ground due to teeth trailing. Steady running under difficult conditions—will not jump around or slide over hard spots. Lenses do not break (lenses when working close to trees). There is practically no wear expense during the life of the machine.

Lacombe Exhibit Captures First

The Board of Trade of Lacombe and District have sponsored an exhibit which will be shown at both Calgary and Edmonton Exhibitions. The products of the Lacombe district are shown in this exhibit and include grains, forage crops, canned fruits and vegetables and other farm products.

An interesting part of the exhibit is a pair of minkskins contributed by the Lacombe Fur Farms, Limited. While these animals will not count any points in gaining first place, they will attract considerable interest and tend to hold the crowd before the exhibit.

A couple of flosses contributed by the Central Alberta Sheep Breeders' Association will bring this phase of agriculture before the attention of the public.

Another unique feature of the exhibit is the display of ribbons won by live-stock of Lacombe District at the major shows and exhibitions. None of the other exhibits will be able to average such a display for lack of material.

Some excellent vegetables and fresh fruits were contributed by the gardeners of Lacombe. While the season is up to date, not as favorable as 1927, some excellent material has been collected and the exhibit prepared will do credit to the Lacombe district. Tom Wilkes, Chairman of the Committee in charge of the exhibit, believes it will take some beating.

Word was received today that the above exhibit won first prize at the Calgary Exhibition.

BEAUTIFUL GULL LAKE—THE MECCA OF HUNDREDS OF HOLIDAYERS

This year, perhaps more than ever before, Gull Lake is drawing holiday seekers in greater numbers; every available cottage is occupied and many more could be rented if they were there. Besides the cottages, we notice more campers at the beach than in previous years and the lake is more lively. At least four new motor boats and canoes have also been brought down, while many more people contemplating bringing more water craft down for next season.

If present plans materialize the lake should, within the next few years, be "Alberta's Greatest Summer Resort," regaining its old-time prestige without losing its appeal to the "Quieter Holidayers." It is known unofficially that the Alberta Government is purchasing a Tourist Park on the lake and is going to put in a substantial pier or wharf. The Gull Lake Aquatic Club is also busy for this year, and in the next few days their diving platform and water slide will be ready for use. The club is spending a great deal of money in making improvements on the lake, and this year's programme is only a small part of what will eventually be done.

The citizens of the lake, have often been accused of being "Against Outsiders," and we feel certain that most of them resent this accusation. It is true that Gull Lake does not want "Rowdyism," but welcomes well behaved visitors. Most of the families there are old timers at the beach, and while they would like to see people come down, and while they are glad to see them, they do not want the lake to ever become a mecca for the rabble, as do some other resorts.

Gull Lake is and always has been a "Family Resort." Its beach of clean white sand and sandy, shallow bottom makes it the greatest children's lake in the west. Swimming, Boating and Canoeing is ready for all corners, and in the evening, dances offer amusement to the older children and grown ups. Fishing is very good, while there are many drives to various parts of the lake.

Ice Cream Parlours, of which Mr. Sandbrook's "Blue Bird" is the finest, attract large numbers, and the watermelon and the "Inner Man" can be attended to by the two grocery stores. Ice and milk are readily obtainable and fresh eggs and vegetables are supplied by the store and farmers at the lake. A good hotel is there for week end visitors, and good meals are served in its dining room. There is also a post office and phone exchange at the beach. All in all, there is little that Gull Lake does not have to offer to the holiday seeker, and more and more it is becoming "Premier among Lake Resorts." We would suggest a slogan for the lake, "Buy or Build."

BENTLEY NEWS

Mrs. Morach had for over Sunday guests, her cousin Mrs. Cunningham. Mr. Cunningham and daughter Perle, of Bowlin. Miss Ferrel remained over for a longer visit.

Elizabeth is up from Crossfield on H-F days.

J. C. Evernden and family leave today for a two week motor tour. They will visit B. C. points.

Leonard Hergott was here on Wednesday and helped to furnish the music for the dance that evening.

Dick Duncanson, who has been teaching at Staveland the past year was home for a couple of days last week. He is attending Summer School at Edmonton.

Miss Rosa Nathan is visiting her sister Mrs. Fred Remchler.

Mr. and Mrs. M. Saint and daughter, Beatrice and Mrs. Geo. Beddoes left on Sunday for Edmonton for a few days visit to their son and brother and family.

The C.G.T.F. girls will occupy the new camp house at Brownlow's

Landing for the next week.

The house being erected on the C. F. Dawson farm, south of town and the new school are well under way. The C.P.R. has the excavating nearly finished for the new Depot.

Mrs. Terry of Lethbridge and Miss Terry, nurse in training at General Hospital, Edmonton are spending holidays at Brownlow's Landing to be near their daughter and sister, Nurse Terry of the Hospital Staff.

A large crowd was in attendance at the United Church, Bentley, on Friday evening, July 5 at induction services of Rev. Mr. Moore, who is taking charge of the work of the Bentley Circuit. Several ministers from a distance were present and assisted with the service. Rev. Mr. Doreen of St. Calgary read the scripture and Rev. Mr. Hughes, of Clive, offered prayer. The induction of Mr. Moore was taken charge of by Rev. Mr. Layton, of Lacombe. Mr. McDonald of Millet gave the charge to Mr. Moore and Rev. Mr. Layton followed with the charge to the congregation. Mrs. Wilkes, of Lacombe sang pleasingly the solo "Open the Gates of the Temple."

Mrs. Moore acted as accompanist. After the closing hymn, Rev. Mr. McDonald of Millet pronounced the benediction, after which the company repaired to the club rooms. To Mr. Blaine Hutton was given the task of introducing Rev. Mr. and Mrs. Moore. The entire company were then seated at the long refreshment table and a social hour was enjoyed by all present.

Bentley's Annual Sports Day passed off very quietly on Wednesday last. "Ole and Roger's" Circus was here, much to the delight of youngsters and to the sorrow of some of the older ones we are told, some of the usual side attraction depicting their pocket books more or less.

With the circus proper, one can find little fault, but to us it seems a shame for so much hard earned money to pass out of the town for this class of attraction. The usual round of sports and races took place. The day given by the Board of Trade to the public school scoring the highest aggregate points in athletics was won by the Gull Lake school, \$15.00 in sport equipment also went with this prize. Stephenson School came next with \$10.00 of sport equipment and Bentley 3rd with \$5.00 sport equipment. Rainy Creek, Sunset and Chapel Schools also competed.

CHAPEL NEWS

The monthly meeting of the Centre Valley W.I. was held on July 6 with thirteen members and nine visitors present. The W. I. ladies are giving a "special" prize of five dollars to the winner of the sewing contest. The first and second prize money. For the child who takes the most lat prizes in public school the prize will be \$3.00; child coming second will receive \$2.00.

Elsworth, was appointed executor for the sewing demonstration to be held at Chapel school, Aug. 6th to 8th. Mrs. Diggle gave a very interesting report of the W. I. Convention held at Edmonton in June.

Mr. Peter Wheeler were hostesses. Everybody was enjoying the showers over the week end. Here is hoping they will be repeated several times before next week end.

Mr. George Graham Sr. and his father C. D. Graham of Unity, Wis., U.S.A. and George Graham, Jr., have gone to Calgary to attend the exhibition.

Mrs. John Craig who is ill at present is being cared for by Nurse Craig.

The Misses Muriel and Ruth Craig are home from their schools.

Z. M. Poling of Edmonton was visiting his sister and family, Mrs. J. B. Elsworth.

Mrs. Emma Gyor of Lockhart is working for Mrs. C. O. Graham.

Mr. and Mrs. Parkinson, of Rainy Creek district were calling on friends in our vicinity on Friday.

Mr. and Mrs. Charles Raymond and grand children were visiting at A. Raymond's over Sunday.

Miss Willo Hankins is enjoying her vacation at home.

LOCKHART NEWS

The W. I. Girls' Club met at the home of Laura Robson on June 29 to make arrangements to go to the lake for their holidays. They have rented the James McPherson cottage for 29 and 30 days in August. It will be theirs to go to a cottage for July.

Mrs. Jim Jeffery and Mrs. G. A. Robson will accompany the girls. After the business of the meeting, the girls had a debate, "Resolved that the girls should be allowed to go to the lake."

Mrs. C. O. Graham and family visited Mrs. Marshall's parents, Mr. and Mrs. Wise last week.

The road work on the Rainy-Clock Highway under the supervision of G. A. Robson was completed last week. The same crew is at work on the swamp north of N. A. Palm's place this week.

Mrs. Dorothy Pearson of Leedale is visiting her grandmother, Mrs. H. E. Reed this week.

Almost everyone in the valley enjoyed the Cole and Rogers circus which they in Bentley or Rainy and were quite pleased with the performance. It was a good, clean little show, and a special treat for the children, although the price of admission was rather high, especially at Bentley.

Miss Emma Gyor is helping Mrs. Charlie Graham this week.

Mr. Krains and Wm. O'Neill were

to Lacombe on Wednesday. Mr. O'Neill shipped a quantity of "fryers" to Calgary.

The "Red Ace" orchestra of Sylvan Lake have hired the hall for July 18 (Thursday) and will put on a dance. This is one of the leading orchestras in the Province, so we are expecting a big time.

Invitations are out for the picnic for the members of the Boys' and Girls' Bowling Club and their parents, at the Experimental Farm, Lacombe on July 15. All members in this district plan to attend.

The shower on July 5th was greatly appreciated as all crops are badly in need of moisture. Some fields that have headed out are only three or four inches high, so a real old time "soaker" will be welcomed.

REX THEATRE

Thursday, Friday and Saturday

July 11th, 12th, 13th

Peter B. Kyne's great Historical Epic of the California gold rush days "Tide of Empire." When Mr. Wells and Mr. Fargo started their first pony express from the gold fields of California. When love, hate, drama followed the tide of the empire, this drama is laid. America's master story-teller wrote the novel. It comes to the screen now with every thrill intact. You should not miss this wonderful story of the outdoors. Two reel comedy "School Begins." Matinee Saturday at 2.30.

Monday and Tuesday

William Haines in the greatest of all crack dramas, "Alias Jimmy Valente." He went crooked for fun, laughed at the law, laughed at love, he was a man they couldn't arrest, but was finally captured by the heart of a girl. Jimmy had a thousand aliases and there is a laugh in each one. It's Haines at his best, as a teacher, criminal who finds his soul. Also two reel comedy "Baby Lips."

Clive Saturday Night

The great farce comedy drama "Adam and Evil."

Bentley Saturday Night

The big 10 reel, special feature, "Scarell and Son." Special prices.

NEWS FROM GULL LAKE SCHOOL

An enjoyable and well attended picnic marked the close of school on June 23rd, and held at Moore's Beach, Gull Lake. After the bountiful picnic lunch prizes for efficiency and work were presented from the teacher to the pupils.

Mr. Leslie Mill, a victor at the home of Mr. R. Cox, made the presentations with appropriate speeches. The teacher, Mr. Elsworth B. Gill, was the recipient of the best of the year's work in the form of a snapshot as an appreciation of her work during the term.

Promotions will be published in next week's paper.

ALBERTA EXHIBITS FOR AMERICAN FAIRS THIS SEASON

Alberta will again be advertised this season by an exhibit of agricultural products and natural resources to be shown at a number of state and county fairs through the middle western States. Arrangements have been completed by the Publicity Branch of the Department of Agriculture to show this display at fairs in Minnesota, Iowa, Nebraska and Kansas during August and September.

A marked increase in the interest shown in the opportunity for settlement in Alberta and emigration to the province is reported from the localities in which similar exhibits have been shown during the past few years.

Alberta should highest among the provinces in Canada with a per capita loss of \$5.74 caused by fires during the year 1928, according to figures compiled by the Dominion during the year is given as \$102,697,849.

37. ANDREW'S UNITED CHURCH

Until the second Sunday in August services will be held in the evening only. Sunday School as usual at 11 a.m. every Sunday.

Rev. J. B. Francis who is leaving for Manitoba will preach next Sunday evening.

Mr. C. O. Graham and family visited Mrs. Marshall's parents, Mr. and Mrs. Wise last week.

The road work on the Rainy-Clock Highway under the supervision of G. A. Robson was completed last week. The same crew is at work on the swamp north of N. A. Palm's place this week.

TEACHER WANTED

Experienced Teacher for Spring Valley S.D. No. 901, duties to commence Sept. 3; about 40 pupils; modern school. State qualifications and salary expected to A. J. Caverhill, Sec.-Treas., Lacombe, Alberta.

Canada Thistle Sow Thistle

and certain other weeds are becoming a serious menace in places throughout the District and in an effort to help in the eradication of them, the Alaska Chemical Products, Ltd., have developed a chemical which is very effective.

Several farmers in the district have used this chemical with very good results. The best time to apply chemical to Thistle is just when the plant is setting bloom.

Paisley & Fangle have been appointed Lacombe agents for this chemical and can also supply a spray pump for applying same. If you do not wish to buy a spray pump, the above mentioned firm will rent one to you at a very nominal figure.

Alaskan non-poisonous Weed Killer sells for \$1.25 per gallon and should be diluted with water according to the kind of weeds being treated. The spray pump makes its use very easy and economical.

DRIVER'S LICENSE CARDS
An efficiency man is badly needed in the government offices at Edmonton, and this fact has been forcibly thrust on the people with the issuing of the Driver's License forms. Instead of having the cards a standard size, no attempt was made to have them cut to fit the commercial envelopes in general use. In fact there is no envelope available that fits this freak form. After filling out the forms the applicant must chase around to get some sort of covering for them, and winds up with wrapping them in paper and mailing. A little common sense should have shown these in authority that the cards could have been made half an

inch shorter and thus put the public to no inconvenience.

WORLD'S OLDEST NEWSPAPER

The oldest newspaper in the world is the Peking Gazette. It is a thousand years old, and during that time fifteen hundred of its editors were executed. There is no particular moral in this. The paper might have existed a thousand years even if they hadn't executed its editors at the rate of one and a half a year.

PUT NEW LIFE IN THAT OLD TIRE!

YOU'VE probably got one or two old tires in the garage that you know the kind, with a stone bruise, perhaps. Maybe there's still many thousands of miles left in them if you let us do a real regular job with Goodyear Repair Materials and put together by Goodyear Factory Method.

Bring your old tires to us. We'll look them over and advise you.

Smoking forests or smoking chimneys—WHICH?

WE CAN'T HAVE BOTH
Over one-half of all Canada's industries depend on wood as a raw material. When the forests are destroyed mills must close down, railway earnings must suffer, trade must stagnate and prosperity must vanish.

Issued by authority of Honourable Charles Stewart, Minister of the Interior.

Add up the reasons for De Soto success

No car in the first year of its life can attain the leadership that De Soto has won without basically sound reasons at the root of that success.

De Soto gives more in performance than any other car in its field will give, and in addition it has an individuality of its own that sets it apart from any other car in any class.

De Soto is alert, nimble and speedy. It is easy to handle and has surprising riding qualities. Its prompt acceleration is remarkable, and its braking is positive and instantaneous because of its hydraulic 4-wheel brakes—not to be found on any other low-priced six.

It is economical to operate, and it is so staunch and sturdy in construction that maintenance is a negligible factor.

Being Chrysler-built it carries the mighty prestige of a Chrysler creation and has an exceptionally high trade-in value.

De Soto Six is a smart and stylish car of which any owner is proud. We invite you to get behind the wheel and experience the thrill—today and without the slightest obligation.

Celebrates Her Ninetieth Birthday

A very pleasing event took place at the home of Mrs. Margaret Green, at Milton, when over thirty of her friends assembled to celebrate her ninetieth birthday. Her children were all present with the exception of her eldest daughter, Maud, who resides in California. Mrs. Green was born in Middle Musquodobiit, Halifax County, Nova Scotia, July 3rd, 1839, coming to this country thirty-eight years ago, with her husband and family. She came to Lacombe the year after the railroad, having seen Lacombe grow from two buildings, a station house and small store to its present size.

The Green home has always been noted for its hospitality. The presents were presented by Mr. Grant, who in his usual witty manner, caused several present to feel they were as yet children compared to Mrs. Green. After singing "For She's A-Jolly Good Fellow," a lunch was served. This was followed by the Birthday Cake, being brought into the room having eighteen lighted candles, representing five years each. Congratulations and good wishes to Mrs. Green for many more birthdays followed.

Among those present were: Mrs. O. Burrows; Mrs. J. McKibbin; Mr. and Mrs. Grant; Mrs. Ed. Barnett; Mr. and Mrs. Roy Flegel; Mr. and Mrs. D. Jaffray; Mrs. J. W. Pawcett; Mrs. R. W. Fletcher; Mrs. H. M. McArthur; Mr. and Mrs. F. Healing; Mrs. E. J. Poor; Mrs. H. Flegel; Annie Flegel; Mrs. M. Douglas; Mrs. E. Fawcett; Mrs. J. S. Myles; John Green; Mr. and Mrs. D. Hilly; Mrs. G. Brown; Mrs. Fred Frank; Anderson Green; Edith Fawcett; Pearl McArthur; Herbert Flegel; Mrs. D. R. McIntosh.

THE PRACTICE OF CARRYING WEAPONS

It is recognized by police authorities generally that if the practice of carrying weapons could be placed under adequate restriction and supervision there would be an amazing reduction in crime.

Indiana has taken steps to deal with the situation which appears prom-

ising. By a new law effective July 1 all existing permits for carrying firearms have to be turned in and applications made for new permits which are to be signed by the sheriff of a county, the chief of police of the town or city, and a judge of the circuit court.

The law says that permits to carry weapons "shall be in duplicate, in form to be prescribed by the adjutant-general of the state of Indiana, and shall bear the name, address, description and signature of the applicant, and the reasons given for desiring a permit." The original is to be retained by the holder and the copy reserved by the authorities for six years.

A suggestion appeared in an Ontario newspaper recently from a correspondent that the federal government should deal more effectively with the gun toting evil. It was proposed that authority should be given to every soldier, Mounted Police, Dominion or provincial police, city police and all other men associated with the enforcement of law and order that they can search any person whom they may suspect of carrying a weapon. The imposition of ten lashes is suggested for the first offence. The very fact of having a gun without an official permit may be

"Tea is Served"

These sophisticated little Cunard trans-Atlantic travellers knew the ropes aboard the big liner Anania before they had been aboard many hours. They are chiefly little Canadians who were visiting uncles and aunts this spring in the Old Country, and they missed very few of the frequent servings of refreshments which one takes for granted at sea.

The Smartest Woman wears Holeproof Hosiery

Two New Styles—
Sheer and Semi-Sheer

at \$1.95

WHETHER she lives in Paris, in New York, in Montreal or Guelph—the well-dressed woman chooses Holeproof Hosiery to be fashionably correct. Colors come direct from France, created by Lucile of Paris, famous the world over as a couturiere. Fashioning, weave, finish, are superlatively lovely—as only Holeproof can make them.

These two new styles will interest you. Number 4000 Ex is a very delicate, transparent chiffon, with contrasting color picot top. Number 3000 Ex is a service chiffon, heavy enough for more than ordinary wear, sheer enough for very good looks. Both are priced, in Holeproof shops, at \$1.95. See them, in the new Lucile colors, this very day. You will be captivated with their loveliness.

Other Holeproof stockings—in colors by Lucile of Paris—may be had in a most complete assortment of styles, at \$1 to \$2.95

taken as prima facie evidence of criminal intent.

A DOCTRINE THAT MAY BE IGNORED

Professor Clyde King of Philadelphia came all the way to Ottawa to advise the members of the Alberta Co-operative Institute that the only way to keep the price of wheat up is to keep production down.

This is fallacious doctrine, on the face of it. There are many factors which influence the price of wheat and the main one is the law of supply and demand. Wheat enters into competition with several other food commodities such as rye and rice. The moment the price of wheat becomes high demand increases for these substitutes.

The main objective of the Canadian grower should be to reduce the cost of production to the lowest possible point in order to increase the market for it against any possible competition. Wheat at a moderate price will enlarge its marketing field by crowding rival commodities off the market more largely. In this way, production can be increased, not reduced.

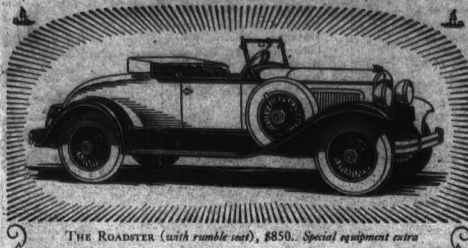

It might be possible, moreover, to control the acreage under wheat in one country with a view to reducing production, but impossible to do so throughout the world. As one country produced less, another would grow more.

Another uncontrollable factor in this situation is climate. Climatic conditions cannot be counted upon. Drought, hail and frost are frequent and unpreventable visitants. There is no guarantee, on the Canadian prairies, at least, that a certain acreage will produce a fixed quantity of grain.

Professor King's counsel may safely be ignored.

Miss May McLeod, of Olive, was seriously hurt on Friday, when she slipped while running in a girl's baseball game, and broke her collar bone. She is progressing favorably under the doctor's care.

MARKING THE FIRST ANNIVERSARY OF A NOTABLE SUCCESS

THE ROADSTER (with rumble seat), \$850. Special equipment extra

THE full-size Chrysler-built Plymouth is just a year old—and what a phenomenal year of success it has had!

All this week we are celebrating the first Plymouth anniversary by holding a gala showing of the newly-refined and improved models which make today's Plymouth still more outstanding in the low-priced field.

When a car in its first year becomes the giant Plymouth is—when it wins the popularity that Plymouth enjoys—when thousands upon thousands of owners sing its praises and exhibit it to their friends with gen-

uine pride—that car certainly must have merits that no other car in its class possesses.

That, in essence, is the story of the Chrysler-built Plymouth.

Plymouth is the only full-size motor car at anywhere near the price—the only low-priced car with the individuality and style of Chrysler designing—the only low-priced car with the smooth, flexible, quiet liveliness so typical of Chrysler engineering—the only low-priced car with the safety of Chrysler-famed four-wheel hydraulic brakes, internal-expanding, weather-proof, positive, noiseless.

LICENSING AUTO DRIVERS

Thus far one of the most fruitful causes of highway accident has been the failure of a large proportion of the automobile public to realize their responsibilities toward themselves and their fellow travellers on the road. We were brought up, most of us who are driving automobiles today, in the days of the horse and the bicycle—the one blessed with no inconsiderable intelligence of its own and the other at least capable of fairly easy manipulation. A good many of us have yet to realize that the automobile is a powerful engine of travel not to be entrusted to children or irresponsible persons any more than they would be put in charge, without examination, apprenticeship, or qualification of any sort, of a locomotive or permitted to navigate a passenger boat on the high seas. And yet, that is precisely what we have been permitting them to do. The 'teen age son, with just enough knowledge gained from having seen his father driving, has stepped into the car and driven away in a cloud of dust to the danger of himself and everyone on the road and there has been no way of showing him he should not. Every motor was at perfect liberty to drive his car (once he had discovered how to start it) from a second hand lot, trusting to luck that he would find the way of stopping it when the appropriate moment arrived. Reprehensible as the intoxicated driver may be, if he is reasonably skilled he may be less of a danger to the public than the sober but inexperienced or stupid driver.

The virtue of the driver's license lies in the fact that it puts the driver under discipline. By cancellation of his license and consequently of his right to drive his car, he can be penalized for his indiscretions and there is no doubt that such a penalty will have good effect on the thoughtless, the reckless and the careless. It will prevent the unskilled driver having equal access to the road with the skilled. It can only be hoped that once the new driver-licensing system is in operation the police and the magistrates will not hesitate to apply the penalties provided.

GOLF

Golf is a form of work made expensive enough for a man to enjoy it. It is physical and mental exertion made attractive by the fact that you have to dress for it in a \$200.00 clubhouse.

Golf is what latter carrying ditch-digging and carpet beating would be if those three tasks had to be performed on the same hot afternoon in short pants and colored socks by gawky looking gentlemen who require a different implement for every mood.

Golf is the simplest looking game in the world when you decide to take it up, and the toughest after you have been at it ten or twelve years. It is probably the only known game a man can play as long as a quarter of a century and then discover that it was too deep for him in the first place.

The game is played on carefully selected grass with little white balls and as many clubs as the player can afford. These little balls cost from 75c. to \$25 and it is possible to support a family of ten (all adults) for five months on the money represented by the balls lost by some golfers in a single afternoon.

A golf course has eighteen holes, seventeen of which are unnecessary,

and put in to make the game harder. A "hole" is a tin cup in the centre of a "green." A green is a small parcel of grass costing \$1.98 a blade and usually located between a slough and a couple of trees, or a lot of "unfinished excavation."

The idea is to get the golf ball into each of the eighteen cups in the fewest strokes and the greatest number of words.

The ball must not be thrown, pushed or carried. It must be propelled by about \$200 worth of curious looking implements especially designed to provoke the owner.

Each implement has a specific purpose and ultimately some golfers get to know what that purpose is. They are the exceptions. After each hole

has been completed, the golfer counts his strokes. Then he subtracts six and says, "Made that in five. That's one above par. Let's play for fifty cents next hole, too, Ed."

After the final, or eighteenth hole, the golfer adds up his score and stops when he has reached eighty-seven.

He then has a swim, a pint of gin, sings "Sweet Adeline" with six or eight other Ears, and calls it the end of a perfect day.

Riding on the Roof of the Rockies

SHADOW LAKE UNDER THE SHADOW OF MT. BALL
Among the most spectacular of the Trail Riders ever attempted in the Canadian Rockies will be the one proposed to start August 8 and lasting 15 days, to take in a long distance ride to the Columbia Icefield from Lake Louise. This icefield is the largest body of glacial ice left on the North American continent covering 160 square miles and surrounded by peaks from ten to twelve thousand feet in height. The ride will be from Lake Louise up the Bow Valley to Bow Lake, over Bow Pass and by the Mistaya Valley past Waterfall Lakes to the North Saskatchewan River, then up the Alexandra River Valley to Castleguard and the Columbia Icefield. Only Trail Riders holding at least the silver button, emblematic of completion of 100 miles of trail riding, will be permitted to join the expedition, since all taking part must satisfy the committee that they will not prove a burden to the rest of the party.

For less experienced Trail Riders, or those who cannot spare the time, there will be a four-day ride starting from Banff August 1 and ending at Castle Mountain Hungarlow Camp. It will take in the Knapik Lake district, which will be accessible for the first time this summer, so that those participating in this ride may regard themselves as pioneers. Beautiful Shadow Lake under Mount Ball will be the camp site of the riders on the second day out and, in all, seven glacier-fed lakes will be on the route of the trail.
